Allowable Subject Matter

1. Claims 1-10 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art does not teach or suggest a hub cap vent plug having an axially outer end face portion, sidewall portions adapted to mate in fluid-tight relation with an opening in an associated hub cap, a small diameter opening terminating at one of its ends in a thin web of the material from which the plug is made, a valve cover having an inner surface substantially parallel to and spaced closely axially apart from the end face portion of the plug so as to define at least one transverse opening between the axially outer end face portion and the valve cover, the inner surface of the valve cover being smaller in diameter than the axially outer end face portion of the plug, and a normally closed valve comprising a slit in the thin web of material to allow pressure and vacuum to vent through the valve, wherein the valve cover resists penetration through the valve of pressurized water.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 3617

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The Kuck reference is considered to show a valve plug with a cover.
